MAX Federal Community

A Pecha Kucha Presentation

Emily Fort, OMB
May 14, 2009

BFEL B E-GOV

Max Federal Community

- 14,000 users and growing
- Began as a tool for the federal budgeting community
- Currently, anyone with .gov or .mil address from the Federal Executive Branch can get an account
- Sponsored by the Budget Formulation and Execution Line of Business
- Managed by Office of Management and Budget

Dashboard with Spaces for Each Agency

The screenshot shows a dashboard titled "Welcome to the MAX Federal Community!". It features a navigation bar with "Home" and "Log Out" buttons. Below the header, there are several content areas:

- Agency Communities:** A list of various federal agencies such as the State Dept, EPA, and HHS.
- Government-wide Communities:** A grid of topics including Homeland Security, Human Capital, Performance, and IT Infrastructure.
- Cross-Community Information:** A section for sharing information across different communities.
- About the MAX Federal Community:** A section providing details about the platform, including its purpose and contact information.

Knowledge Management

- A Natural Extension of the Community

- Knowledge Management is only effective when content maintenance is integral to an organization's normal course-of-business activities.
- By using the MAX Community for information sharing and collaboration activities, a content base automatically accumulates.
- The Community's powerful capabilities for organizing and multi-purposing content can then transform this into organizational knowledge
